

WASTE MANAGEMENT

- The requirements in the waste treatment sector in terms of lightness, self-lubrication and low costs are met by the using plastic materials.
Tecno Plastic Engineering specialises in the production of PA6G slides and PET bushings, which are just some of the essential components for the waste collection and compaction vehicles produced in our workshop.

► PA6G • PA6G+MOS2 • PA6G+OIL • PET • PE

- **APPLICATIONS**
BUSHINGS, SKIDS, SPACERS, STRUCTURAL COMPONENTS

► ADVANTAGES

- HIGH WEAR RESISTANCE
- EXCELLENT SLIDING PROPERTIES
- REDUCTION SLIDING PROPERTIES
- REDUCTION OF THE MAINTENANCE COSTS
- WEIGHT REDUCTION
- NOISE AND VIBRATION REDUCTION
